(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface for a medical device, as shown and described.

See application file for complete search history.

DESCRIPTION

The sole FIGURE is a front view of a display screen or portion thereof with graphical user interface for a medical device.

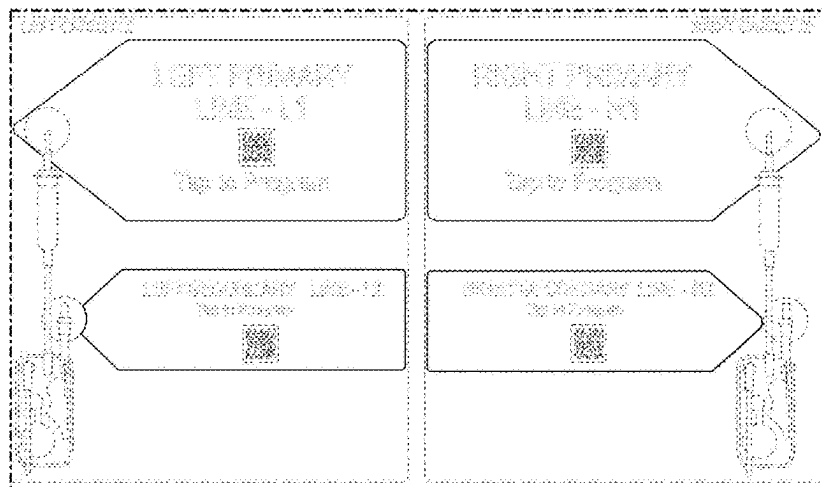

In the sole FIGURE, the outermost dot-dash broken line showing a boundary of the display screen or portion thereof forms no part of the claimed design. The remaining dash-dash broken line showing the graphical user interface forms no part of the claimed design.
