(57) **CLAIM**

The ornamental design for a display screen or portion thereof with animated graphical user interface as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a display screen or portion thereof with animated graphical user interface showing a first image of the claimed design;

FIG. 2 is a second image thereof;

FIG. 3 is a third image thereof;

FIG. 4 is a front view of another embodiment of a display screen or portion thereof with animated graphical user interface showing a first image of the claimed design;

FIG. 5 is a second image thereof; and,

FIG. 6 is a third image thereof.

The outermost broken lines in the figures show a display screen or portion thereof, and form no part of the claimed design. The other broken lines in the figures show portions of the animated graphical user interface that form no part of the claimed design.

The appearance of the animated image sequentially transitions between the images shown in FIGS. 1-3 and FIGS. 4-6, respectively. The process or period in which one image transitions to another forms no part of the claimed design.
