## **Description**

(1) FIG. 4 is a front view of a display screen with a graphical user interface for visualization of data of the new design; the variation in grey shading in the circles in FIG. 4 represents a contrast in color appearance only and no specific particular colors of the shaded circles are hereby claimed; the broken lines in the Figure shows a display screen or a portion thereof that forms no part of the claimed design.

## **Claims**

The ornamental design for a display screen or portion thereof with graphical user interface as shown and described.
